"Once upon a time, we lived alongside Legends. Creatures of myth. Centaurs, fauns, gorgons, kelpies, gnomes, and more. They were spectacular. Majestic. Powerful. Peaceful. Pure. In comparison, we were ugly. Weak. Warmongering. Rotten. Is it any wonder we could not live alongside them any longer? After driving these Legends to the fringes of society, an uglier form of mythos takes shape in the form of rumors of live snuff shows for dark web high rollers. When a mysterious young woman, Nessa, enlists the help of a hacker to take a tour of the grisliest corners of the Dark Web, she sets in motion a war between those who peddle to mankind's darkest fantasies and a world that transcends imagination. Trojan is fantasy thriller full of wonder and horror in equal measure. In this concluding issue, Nessa goes live in what might be the final appearance of her life."

In this action-packed prelude to the hit series, acclaimed horror writer Daniel Kraus (George Romero's *The Living Dead*, *The Autumnal*) unveils four globe-spanning tales from the earliest days of the zombie apocalypse when even the wildest rumors couldn't measure up to the horror to come. A streetwise Russian cop patrols the back alleys of the opportunistic black market that emerges in response to the crisis...a North Korean soldier observes strange happenings on the DMZ...An E.R. nurse in the rural South fights to protect her hospital from threats without and within...A transgender flight attendant who has observed disturbing clues as she crisscrosses the globe keeps a wary eye on the passenger in seat 23C.

Q: Readers might be forgiven for assuming that the titular creatures of Nightwalkers are still simply vampires, though they'd be quite wrong. How are the Nightwalkers different from your run-of-the mill bloodsuckers?

"Part of the fun of this series for me is playing with the expectations of vampires. There will be times, especially early on, when readers will think they have a pretty good understanding of these creatures. They'll think they know where they are going and what they are up to. But we're going to use those expectations against them as often as possible." - Cullen Bunn
